Working together for the benefit of SMEs

Article By: di-ve.com news

GRTU Malta Chamber of SMEs (GRTU) and the Malta Institute of Management (MIM) have yesterday evening signed a Memorandum of Understanding during MIMs 50th Annual General Meeting.

Through this agreement these long standing organizations will work together to create training, learning and networking opportunities that are affordable and tailor made for small enterprises. This will be done also through the use of the advantageous funding made available by the European Union, especially the programmes under the European Social Fund and the Erasmus+ programme.

We feel the match of our two organizations is an ideal one. On the one hand GRTU is synonymous with small businesses and it has years of experience in representing their interests and understanding their needs. On the other hand MIM has equal experience in training and leading entrepreneurs and managers for their advancement.

The agreement was signed by MIM President Reuben Buttigieg and GRTU's Vice President Marcel Mizzi.
