## **Gertrude's Testimonial:**

*"My Erasmus experience was a truly remarkable one. It was my first time going on such an experience and through this mobility I have learnt more knowledge about my area of work that I could only acquire it and understand more by going to this visit - Thanks to this Erasmus experience.*

*I was very excited to go. I was anxious to meet and get to know more about the receiving institution, being one of the top business hotels in Prague city.*

*My colleague and I have been thinking of applying for this mobility for a long time and when the opportunity came along, we applied and were accepted to carry out this visit with the help of our Erasmus Officer.*

*For best moments :- Being able to integrate with the Czech culture and getting to know more about their lifestyles; Spending a few nights in one of the most exciting cities in Europe known for its history with gothic churches and baroque buildings; We also had the opportunity to experience some snow during some of the days we were staying there.*

*I would highly recommend this experience to anyone who is interested to go on an Erasmus experience like I did since it is a very enriching visit and one that will leave a mark for the rest of my career."*
