John's Testimonial:

"It was a fantastic exchange of ideas and work practices. An opportunity to shadow experts in my area who work in a world centre of excellence. It was a glimpse into what can be done and the tools needed to do it. There was also chance for a two way exchange of ideas where the hosting facility benefited from having external observers like us.

[I chose to go because] I work in a niche area. It was an occasion for me to learn about how problems I encounter in my everyday work are dealt with by a larger more experienced institution. The application process was smooth and easy and I felt reassured and safe before I left.

The worst moments are coming back and having to make up for a week of absence. The best moments are the appreciation of the many ways in which my peers and I are able to hold our own with our European colleagues, even though they have more opportunities and resources than us.

[To anyone thinking about going on a similar experience, I say] that the application process is easy and smooth. That the exchange of ideas and work practices can last more than a week. That it is always good to see how things are done in other places."
