

Participant details	
First name	Joseph
Last name	Casingena
Erasmus+ Mobility details	
Mobility dates	7th – 12th May
Place of Mobility	Almeria, Spain

Joseph's Testimonial:

"[My Erasmus+ experience was] Very good experience I must say. We learn through our diversity, albeit a school of our dimension with less formalities. The cuisine is very much Spanish in its nature and that has made my visit even more interesting. I have learnt a lot and the hosting school was very much prepared to host me and treat me with a perfect manner. In our free time we have been to some historical sights of the region which is enriched with a home grown culture.

This is the second experience in this genre and I do not regret by far, it was really worth the stay. I have chosen Spain as I expected that it is more valid to share and compare with a Mediterranean country.

Sharing the knowledge in the kitchen environment is always the very good experience. There haven't been any worst moments really apart from the fact that I had a struggle to communicate. The lecturers level of English is very limited and I had to communicate with a blend of English and some Italian but somehow we managed through.

[An Erasmus+ experience is] A very good experience one should not miss. I regret that I have never participated before, this experience and the previous in Britain have been a very enjoyable learning experience one should not miss given the opportunity."
