| Place of Mobility | Wales |

Julie's Testimonial:

"It was a great experience as it has improved my social knowledge of the country in Wales. It has helped me gain knowledge that are relevant for my current job. Improved my English language skills. Our host and trainers were very collaborative and helpful. It has certainly valued our relationship with the receiving institution.

I was really eager to visit one of our valued partners. I was excited in visiting Wales. I choose to go as this gave me an opportunity to gain knowledge related to my job and to have a better understanding of practice and procedures.

The best moments were in meeting new people, making new friends and sharing experiences. Seeing new cultures and enjoying the spectacular countryside. Absolutely no worst moments.

[To anyone thinking of going on a similar experience, I say] It is an excellent opportunity, it will enhance one's knowledge in a different environment and culture."
