Describe your Erasmus+ experience
It was a very positive experience throughout. My colleague and I were welcomed warmly and our coordinator and colleagues made sure that we got the maximum benefit from this experience.
How did you feel before going on Erasmus+? Why did you choose to go?
I was very much looking forward as well as being just a little bit nervous about whether everything would go smoothly and how I would fit in. I chose to apply since I have worked in my current job for a long time and wanted to find out how other similar authorities work and how I would manage in a different work environment.
What were the best and worst moments of this experience? How do you feel they helped you?
I cannot think of any "worst moment" since it was a very good experience. A very positive moment was when I realized that I was not only learning a lot myself, but also able to share my expertise with my Irish colleagues, and that they found my insights very useful. One interesting highlight was accompanying some colleagues to a planning related session of the Senate, the Irish upper house of parliament.
What would you say to someone who is thinking about going on an Erasmus+ experience?
If you get the opportunity, do take it. It is always beneficial to have new experiences, meet new people, and get out of your "comfort zone" for some time.
