Describe your Erasmus+ experience
The 'Create the future leaders and innovators in your classroom' course was an enriching experience because it gave the participants ample space to share, discuss and compare notes on ideas that we were receiving information about. The input that was given was structured but also tailor-made for the needs of the participants. That flexibility was appreciated.
How did you feel before going on Erasmus+? Why did you choose to go?
I was looking forward for this Erasmus+ mobility and course. Firstly, because when the course was advertised it had topics that I am interested in developing and understanding further in the educational area which I work in. Secondly, because I always look forward to understand and appreciate how other people from other countries are developing ideas.
What were the best and worst moments of this experience? How do you feel they helped you?
Overall, the course was a very positive experience and hence certainly deserves only to be remembered as a very good experience.
What would you say to someone who is thinking about going on an Erasmus+ experience?
I think I would say 'don't hesitate, spot a course you like, take a plane and go'. One way or another it's a learning experience to make.
